

# CHAINSAWS

 **Husqvarna**®

## XP SERIES

Maximum power and performance with our most advanced chainsaws. Power, performance and features suited for long demanding shifts. Our 500 series XP chainsaws are equipped with all the latest features, to maximize the performance in every situation. The air injection system keep the engine clean, Low vib technology reduces vibrations and makes the machine extra flexible while auto tune ensures the engine runs optimally in all weather conditions.

500 series XP chainsaws feature:

- ✓ Quicker starting engine with smart start technology
- ✓ Low vib dampens vibrations for more comfortable operation
- ✓ High-endurance air injection air cleaning system
- ✓ Ergonomic and well-balanced designs lighten your workload

Premium XP features include:

- ✓ Magnesium crankcase
- ✓ Three-piece crankshaft
- ✓ Reduced gyro forces
- ✓ Side-mounted chain tensioner
- ✓ Combine start/stop control
- ✓ Chain brake indicator
- ✓ Retained bar nuts
- ✓ Long slide rails
- ✓ Triobrake
- ✓ Heated handles

**TrioBrake system** is a unique feature that allows the chain break to be activated automatically by the inertia release mechanism or mechanically by your right hand. This will help you work safer, easier, efficiently and in a more ergonomic fashion, with less strain on your body.

**Efficient X-Torq engine technology** reduces exhaust emissions by up to 60% and increases fuel efficiency by up to 20%. Now you can work more comfortably and economically

**Smart AutoTune technology** optimizes engine performance through a digital tunes carburetor. AutoTune compensates for different fuels, altitude, humidity, temperature and filter condition.

**RevBoost** provides rapid and smooth acceleration, with higher chain speeds for best limbing performance.

## ALL ROUND

Fully-featured chainsaws designed for any situation. These chainsaws are easy to start and easy to maneuver, ideal for landowners and homeowners who cut less regularly. Thanks to the x-torq engine, your operation will be comfortable and efficient, because the exhaust emissions are reduced and less fuel is needed. All chainsaws are all equipped with the low vib system that reduces vibration to make your work even more comfortable. A high-powered, heavy-duty and responsive saw, ideal for landowners and part-time users.

All-round chainsaws feature:

- ✓ Powerful and efficient x-torq engines
- ✓ High-endurance air injection air cleaning system
- ✓ Quick-release air filter
- ✓ Three-piece crankshaft
- ✓ Fuel pump for easy starting

This traditional saw is ideal for jobs like pruning, lighter cutting tasks and hobby work. Combines versatility and efficiency in a lightweight design makes it exceptionally easy to start and maneuver.

## TOP HANDLE

Husqvarna T540 XP is lighter, faster and remarkably compact. Designed for the high-end top handle saw segment, targeting professional customers like full pro arborists, landscapers, garden contractors and utility services who need excellent performance in combination with the best ergonomics. The top handle grip size can be set in three alternative sizes, to perfectly fit your hand.

T540 XP features:

- ✓ AutoTune
- ✓ X-Torq
- ✓ TechLite bar
- ✓ LowVib
- ✓ Visible fuel level
- ✓ Belt eye let
- ✓ Air injections
- ✓ Auto return stop switch
- ✓ Quick release air filter
- ✓ Adjustable oil pimp
- ✓ Chain tensioning from the side
- ✓ Hand guard
- ✓ Inertia chain brake

## POLE SAW

Pruning dense trees can force unnatural working position that can be harmful for your body. Our professional pole saws are designed to make you work in a good ergonomic position and give you the opportunity to work with a high-end result.

**SmartStart** The engine and starter have been designed so the machine starts quickly with minimum effort. Resistance in the starter cord is reduced by up to 40%.

**Auto return stop switch** Stop switch automatically resets to the ON position for trouble-free starting.

**Chain tensioner** Adjustable chain tensioner, no tools required.

**Balance Flex** Harness with ergonomic design. Flexible suspension to reduce stress on arms in all working positions.

Choosing the right chainsaw can be tough and learning how to use it correctly can take time. We offer a variety of useful information that can make your operation safer, easier and more efficient.
