

Cut-n-Break Saw

 **Husqvarna**®

The Husqvarna K 760 Cut-n-Break now has a new type of Cut-n-Break blade, with an improved stable core and cutting performance. The saw can cut in stages through walls up to 16" thick. With a standard engine of 73 cc, the Cut-n-Break has taken a big step toward increased cutting capacity. Additionally, the power cutter features reduced noise levels and a high-efficiency vibration dampening system. Equipped with the new generation of Active Air Filtration, one of the market's most efficient centrifugal air cleaning systems, you can get up to one year's operation without a filter change. The K 760 Cut-n-Break is easy to operate and maintain, with low service and tool costs. It is also outfitted with an X-Torq engine, which reduces emissions up to 75 % and lowers fuel consumption by 20 %. It is very easy to start due to Air Purge and a decompression valve.

The Husqvarna L 760 Cut-n-Break features:

- ✓ Makes up to 16+ deep cuts from one side
- ✓ X-torq
- ✓ Active air filtration
- ✓ Smartcarb
- ✓ DuraStarter
- ✓ Anti-vibration system
- ✓ EasyStart
- ✓ Sealed transmission
- ✓ DEX (Dust extinguisher system)
