

Riders & Tractors

The Tractor was the first introduction to the riding lawnmower family, the Tractor and Rider has become a homeowner and consumer classic with its many attachments and all terrain versatility. The Tractor and Rider family has grown so large it has now been divided by frame specifications. There are three categories, the LS Series, Lawn and Garden series and the Articulating rider.

New Products, New Design and New information, we understand that a lot of information for property owners. With so many different lawn care needs here is a breakdown of the benefits of each series to help in choosing which will best suit your lawn care routine.

LS Series Tractors

Our LS Series garden tractors with side discharge are ideal for large properties. They feature wide cutting decks, extra heavy-duty chassis, First-class ergonomics and powerful engines so you can perform like a pro. All LS Series models feature a hydrostatic transmission for superior transport speeds, as well as cruise control and extra-large rear tires for a mother ride.

- ✓ Powerful engines
- ✓ Push Button starting
- ✓ Heavy-duty Fabricated Cutting Decks (Lifetime Warranty)
- ✓ Ergonomic step-through design
- ✓ Smooth, Pedal-operated hydrostatic transmissions
- ✓ Fender-mounted cutting height adjustment

Lawn & Garden Tractors

Compact and Versatile, Husqvarna's garden tractors provide superior year-round performance. Features such as fender-mounted cutting height adjustment, adjustable seat and an ergonomic steering wheel make these tractors simple and comfortable to operate. Hydrostatic transmissions and air induction mowing technology ensures a clean, consistent cut every time. In addition, all models can be equipped with a range of towable accessories.

- ✓ Powerful Engines
- ✓ Smooth, Pedal-operated Hydrostatic Transmissions
- ✓ Fender-Mounted Cutting Height Adjustment
- ✓ Precision Cutting with Air Induction Mowing System
- ✓ Ergonomic Step-Through Design

Articulating Riders

Husqvarna articulating mowers put the professional touch on your yard. Articulated steering provides first-class maneuverability and makes driving around trees, bushes and flower beds a breeze. The efficient rear-wheel-drive system ensures excellent traction when mowing on slopes and is further enhanced with all-wheel-drive on the R 322T. Combines, these two features provide best-in-class mowing performance. The air induction side-discharge cutting deck allows grass clippings to be dispersed evenly. The deck also has reinforced tube bar for extra durability around the deck frame. The combi-cutting deck is perfect for mulching, which promotes a healthier lawn.

- ✓ Precision-Welded Steel Chassis
- ✓ Front-Mounted Cutting Deck
- ✓ Intuitive Operation
- ✓ Easy-Access Controls
- ✓ Versatile Attachments
- ✓ Convenient service position (except R120S)
