

The Pushmower

In the past two decades there has been a drastic change in the way homeowners take care of their lawns. There are so many different makes and models of lawnmowers out there with different specifications, cutting decks and attachments. Not all Lawns are the same shape, size or maintenance level, but how do you know when choosing a lawnmower, which will be best for your lawn care needs? This will help narrow down the choices for your lawn care needs.

Let's begin by going back to the first series of lawnmowers with the basic push-mower. The push mower has now been divided into four different categories, Manual, Push and propelled, HD 22+ and All-Wheel Drive.

All-Wheel Drive

Husqvarna all-wheel-drive (AWD) mowers provide users with balance and power to all four wheels on hills, uneven terrain and other tough mowing conditions. Featuring 22+ heavy-duty steel decks, powerful engine and a 3-in-1 cutting system so you can bag, mulch and side discharge grass clippings. Revolutionary cutting height adjustment, a water hose connector for easy cleaning of the deck and comfort grip control bail are just some of the reasons why Husqvarna AWD mowers take lawn care to a whole new level

- ✓ Powerful Engines
- ✓ Revolutionary Height Adjusters
- ✓ Large Dust Blocking Bag
- ✓ Aggressive Tread Wheels
- ✓ Convenient Folding Handle

HD 22+ Series

Our range of lawnmowers offers the innovative ergonomics, durability and performance you expect from Husqvarna. Versatile features, like the 3-in-1 cutting system give you the option to bag, mulch or discharge clippings, and powerful engines provide smooth and comfortable operation. These high-capacity machines feature advanced air flow technology that helps fill the collector bag to the optimum level, for a cleaner result. Husqvarna HD series mowers feature cutting decks that are 17% thicker and cutting blades that are 10% thicker.

- ✓ Powerful Engines
- ✓ Heavy-duty Fabricated Cutting Deck
- ✓ Wide 22+ Cutting Deck
- ✓ Rear-Wheel-Drive

Push & Propelled

Whether you want a push mower or a self-propelled, Husqvarna has a wide range of options to choose from. What they all have in common is durable design and advanced air flow cutting technology that helps fill the collector bag to the optimum level, for a cleaner result. They're also equipped with a heavy-duty steel deck, powerful engine and blade stop, which allows you to empty the bag while the engine is running. Ideal for homeowners and professionals, there's a Husqvarna mower that suits you and your property perfectly.

- ✓ Powerful Engines
- ✓ Rear and Side Discharge
- ✓ Air Flow Cutting Technology
- ✓ 3-in-1 Cutting System

Manual

Simple, effective and environmentally friendly.

- ✓ Sturdy, durable wheels are easy to roll
- ✓ Extra-hardened reel blade and bed knife for excellent cutting performance and maximum durability
- ✓ Maneuverability allows you to unlock the rear wheels for full-steering to create unique, curved bed shapes, or lock the rear wheels to ensure a straight edge every time.
